Important Cart Placement Information

Please place your cart at least 5 feet away from all objects, including your second cart, mailbox, car, or tree, to allow the automatic arm space to lift and empty the carts safely. The lid opening should face the street with the wheels of the cart facing your house. Thank you for your cooperation and assistance with this matter.

The lid opening should face the street with the wheels of the cart facing your house. Thank you for your cooperation and assistance with this matter.

Most Common Contaminants

Keep these common contaminants OUT of your recycling bin.

No Recyclables In Plastic Bags

Empty recyclables directly into your bin and leave the plastic bag out.

No Food & Liquids

Compost instead! Otherwise it belongs in the trash.

No Electronics & Small Appliances

Donate if in good condition, or schedule a bulky item pickup, if available. Check earth911.com for a local drop-off site.

No Textiles, Bedding, Rugs & Carpet

Donate these items if they are in good condition. Large quantities may require special disposal.

No Tanglers, Holiday Lights, Hangers & Extension Cords

They wrap around equipment and can shut down an entire facility! They all go in the trash.

No Plastic Bags, Film/Sheeting & Flexible Film Packaging

Take plastic bags back to local retailers to keep them out of the recycling stream. Visit plasticfilmrecycling.org to find a drop-off location near you.

No Paper Napkins, Plates, Cups & Tissues

Compost if possible, and remember to recycle the cardboard tube.

No Polystyrene Foam

Foam and plastic containers are not recyclable curbside. Find drop-off programs for items like foam packing peanuts at earth911.com.

No Tires, Auto Parts & Scrap Metal

(Not in recycling or trash.) All can damage equipment and are safety hazards. Contact your local scrap recyclers or retail tire stores for recycling options, or check earth911.com for a drop-off center near you.

No Concrete, Wood & Construction Debris

Can damage equipment & are safety hazards. You may be able to schedule a bulky item pickup - otherwise throw it in the trash or order a roll off bin by contacting Waste Management Customer Service.

No Yard Waste & Wood

Compost or put in your yard waste cart, if available. Otherwise it belongs in the trash.

No Non-Recyclable Plastic

Not everything that is plastic is recyclable! Recycle only food & beverage bottles, jugs and tubes.

Did you know recycling just one aluminum can saves enough energy to:

Run a TV for two hours?

Power a 14-watt CFL bulb for 20 hours?

Power a computer for three hours?

When you think of the difference just one person could make, imagine the positive impact whole communities could have by recycling.

Give This Paper A Future!

This isn't this piece of paper's first rodeo. It's been recycled before, and it can be recycled again. So do your part.

Check out these other items that got a chance at a second career.

That bottle in your cup holder today could become a park bench or even filling for a parka one day.

Recycle that newspaper today, and it could return to your home in the form of a cereal box. Recycle that

aluminum can today, and it could be back on the shelf as a new one in just 60 days! And this

piece of paper? Recycle it today, and who knows what story it might tell later.

About WM:

We partner with our customers and communities to manage and reduce waste from collection to disposal while recovering valuable resources and creating clean, renewable energy.

It's Time To Rethink Recycling. Recycle Right Every Day.

**RECYCLE
RIGHT** 

You Have The Power!

Ever wonder, “Why recycle?”

Sure, it’s good for the environment, but there’s more to it than that. Every day we encounter hundreds of recyclable items. By recycling properly, we can save tons of raw materials, which in turn can save time, energy and expense.

Recycle Right

Thanks to WM’s advanced processing technologies, it’s easier than ever to recycle. Simply put all your recyclables loose into your recycling container – don’t bag your recyclables and please don’t include loose plastic bags. Roll your recycling cart to the curb and WM takes it from there. Your recyclables go to the Materials Recovery Facility (MRF) where they are sorted and baled for use by manufacturers.

Quality Is Key

Keeping your recyclable material clean, dry and loose in your container – free from contamination – is the best thing you can do to help ensure the materials you recycle today go on to have a useful second life.

To learn more, visit wm.com/recycleright

Let’s Get Back To The Basics Of Recycling

Remember these three simple rules each time you recycle:

Recycle clean bottles, cans, paper and cardboard.

Keep food and liquid out of your recycling.

No loose plastic bags and no bagged recyclables.

Always Recycle

Do Not Include In Your Mixed Recycling Container

SINGLE STREAM RECYCLING
